

SCHOOL FOR ENVIRONMENT AND SUSTAINABILITY Environmental Fellows Program UNIVERSITY OF MICHIGAN

The Environmental Fellows Program is looking for future leaders and decision-makers in the rapidly changing fields of conservation and philanthropy.

Become a 2019 ENVIRONMENTAL FELLOW!

THE PROGRAM:

- A 12-week internship in a nationally recognized environmental NGO, philanthropic organization, government office, or grassroots organization!
- A \$10,000 stipend plus travel support.
- Diversity, equity and inclusion training.
- Attend the Environmental Grantmakers Association Annual Retreat, 2019.
- Participate in the New Horizons in Conservation Conference, 2020.
- Alumni network and career support.

CONSIDER APPLYING IF...

- You are committed to incorporating the principles of equity and inclusion in the environmental field.
- You think beyond traditional definitions of the environment.
- You are curious about grant-making and its relationship to the environment.
- You want to enhance your networking skills and job connections.

APPLY NOW!

Applications open November 12, 2018
Application deadline: January 31, 2019

SCHOOL FOR ENVIRONMENT AND SUSTAINABILITY

Environmental Fellows Program

UNIVERSITY OF MICHIGAN

Fellows Orientation:

A 3-day orientation at the University of Michigan offers diversity equity and inclusion training, an introduction to environmental philanthropy, job skill training and more!

Summer Internship:

Gain career exposure during 12-week paid work placements in mainstream environmental organizations, nonprofits, social justice organizations, philanthropic organizations, environmental media outlets, policy think tanks, governmental institutions, or grassroots environmental organizations.

Environmental Grantmakers Association Retreat:

Fellows attend the Environmental Grantmakers Association Annual Retreat where they learn about current trends in environmental giving, hear from front-line activists, and present their summer experiences throughout the conference.

Alumni Connections:

Join a growing cohort of environmental professionals! Fellows and alums receive information about job openings, career development support and are invited to present at the annual New Horizons in Conservation conference.
